

EASY-KLEEN

PRESSURE SYSTEMS LTD.

MANUFACTURER OF HIGH PRESSURE CLEANING EQUIPMENT

PROLONG THE LIFE OF YOUR EQUIPMENT

Model FD2435E-GP

- 5 HP Electric Motor
- General Pump
- 3.5 GPM @ 2400 PSI
- Trigger Gun Controlled Auto Stop Start
- 100 Feet of Non-Marking Hose
- 250 Foot Hose Reel
- High Pressure Chemical Injector

This stationary unit is always hooked up and ready to use. With a squeeze of the trigger gun you're ready to clean. It's easy, safe and exactly what your fire station needs.

Testimonial

The Oromocto Fire Department is currently operating two of the Easy Kleen Firehouse Systems at each of our two stations. They are used for both truck and equipment cleaning.

We had previously used gas powered systems that we rarely used because they were so cumbersome to set up and operate. With the electric systems from Easy Kleen, they are mounted on the walls of the stations with no hook-ups required. This ease of use ensures that they are used for clean up after all fire events thereby extending the life span of the equipment and trucks.

I would highly recommend these systems to other Fire Departments.

- Jody Price (Oromocto Fire Chief)
